

Multifamily Energy Savings Program

With Idaho Power's Multifamily Energy Savings Program you can help your tenants save on monthly energy bills and increase their comfort, while adding value to your property. The program provides **FREE**, direct installation of the energy saving products.

Energy saving products will be installed in pre-approved, electrically heated multifamily dwellings at **NO COST** to the property owner or property manager. Lower your maintenance costs and increase tenant satisfaction.

Benefits

- 1 Lower Energy Costs
- 2 Less Maintenance
- 3 Happy Tenants

Qualifications

Own or manage a multifamily property in Idaho Power's service area, including apartments and condominiums, that use an electric water heater. Space heating can include natural gas, wood, oil propane, etc. Each building is pre-approved, through an on-site walkthrough, by Idaho Power.

How to Apply

For program information call 208-388-2785 or email bartehowell@idahopower.com
